Target Growth 10<sup>SM</sup> fixed index annuity is designed for your clients who:

- Are focused on longer-term accumulation but are concerned about market volatility and risks
  - Could use a 10-year burst of accumulation prior to needing to switch to retirement income
  - Prefer an easy-to-understand FIA that comes with the flexibility of a bailout feature
  - Seek carefully chosen, complementary index options that collectively provide diversification for a range of market conditions
-
