**Pre-Built, Customizable
Consumer Prospecting**

HOW TOs

DMI's Complete Campaign can help you prospect for clients. Just copy, paste, and deploy individual promotions –or– leverage the entire campaign that's already made. We built this campaign to run weekly, monthly, or any time frame that works for your business. This campaign is designed to promote an online webinar, but you can use these materials for in-person events by simply changing "webinar" to "seminar" throughout.

Choose one or more items per week/month. Simply click the icon to access the Emails, Downloads, and Social Posts.

Copy the images and text and paste them into your applications. The highlighted areas are where you'll need to customize. Don't forget to add your contact information and disclosures where needed.

This Complete Campaign will help get clients and prospects interested in your webinar and each step allows them to register.

Finally, the last step is a Social Security Optimization webinar you'll host on **WEEK 5**.

You'll need to run the webinar itself, but we're giving you the presentation and all the marketing to make it work.

FOR PROFESSIONAL USE ONLY.
